Manufacturing and designing

Performance of private and public furniture and interior projects in cooperation with interior designers and architects, real estate developers and project leaders.
We provide professional support as part of the project team.

OEM, furniture for hotels, shops, cruise-ships, offices, exhibition displays, residential and public freestanding and built-in furniture and interior elements in combination of wooden materials, upholstery, glass and metal.

Accurate production process and transparent origin of materials.

We combine our knowledge in design, project management and furniture production with our values - creativity, honesty, satisfaction.
